Did You Know...

Your Nortel System Could...

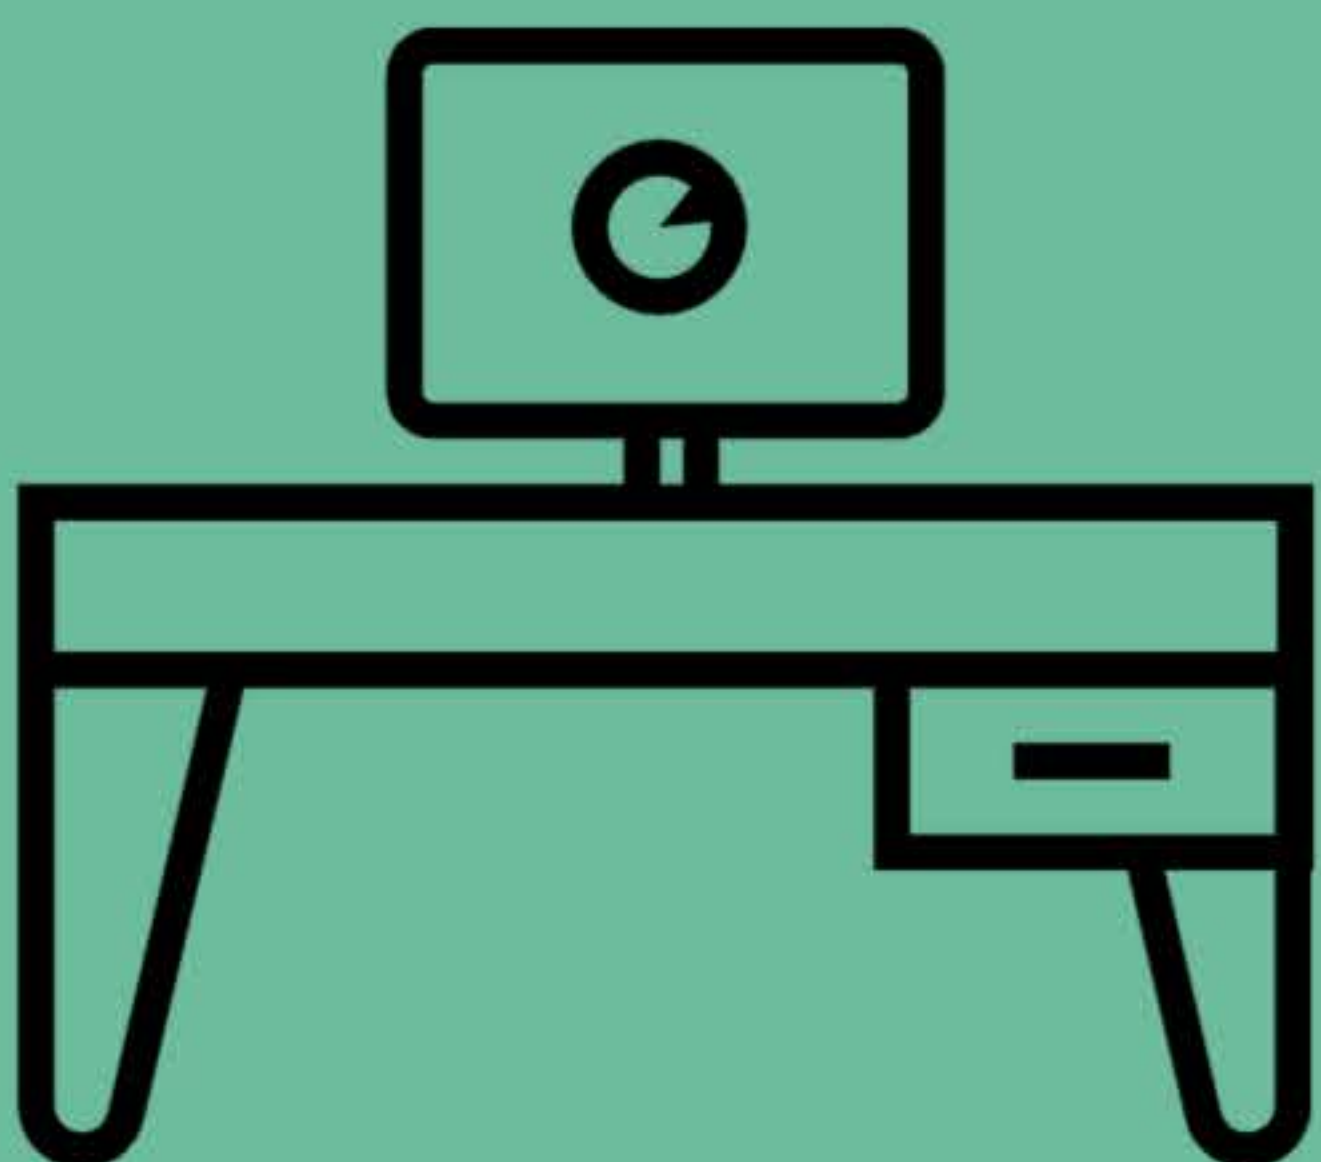

Integrate with Your Computer

Giving you much needed interoffice communications and Presence.

Have Usable Cell Phone Apps

So when workers call the clients called see YOUR number and not thier private cell phone number.

Support Remote Workers

Employees can work remotely and still stay connected to everyone at the office.

Intergrate with Newer VoIP Telephones

With over 300 different VoIP telephones available they can even pair to your cell phone.

Caller ID, Email Messaging and More...

Employees can work remotely, stay connected to the office and have private chat interoffice too.
